S-BOX™

POP-UP POWER AT A SINGLE TOUCH

S-BOX

CLEVER KINETICS WITH CHAMELEON SKILLS

The S-Box™ “pop-up” system delivers concealed power with a simple touch. Unlike some other products on the market, the S-Box™ rises smoothly from any work surface with just a press of a finger, providing convenient access to power anywhere and particularly suits itself to kitchen island units.

S-Box™ gets one over on the competition with its patented technology. This allows a personalised ‘custom top’ to be fitted to match the work surface and the product is discretely stored away whilst maintaining a flush work surface with a beautiful shadow-line detail for uninterrupted style.

As well as concealed power, S-Box™ can also offer a range of concealed storage options, including knife or spice boxes.

Key features:

One-finger automatic lift-action
Adaptable top creating flush or collared surface look with any worktop
Low-rise design
Solid steel construction
Patented product used by interior designers worldwide
2-Litre ‘splash test’ - certified for counter-top use*
Invisible “chameleon” installation

*U.L. Laboratories

Designed & Built in Britain

F.I.R.A. Innovation Award

Splash Resistant - Certified for counter-top use

S-BOX

VERSATILE WITH STYLE IN MIND

S-Box™ products offer unique versatility and add both style and value to any Interior or Kitchen design. Whether they are concealed with matching worktop cover or are simply surface-mounted - using the available brushed stainless steel top and collar – they ultimately provide a properly designed and clever solution for the provision of countertop power. . without walls!

Matching solid wood worktop, with stylish shadow line

Matching Granite, Quartz and Corian worktop, with stylish shadow line
