

S-BOX™

POP-UP KNIFE-BOX

Please note: Knives are not included.
This unit is designed to take your own personal set!

The Knife Box stylishly presents those favourite or special cooking implements close to hand but equally enables them to be stored simply and safely away when not required.

Comprising a unique single slot of 3mm width, this S-Box enables any size of knife to be stored in any position, rather than the restricted slots of a traditional knife block.

Sharpest knives are duly off the kitchen work surface, not in a kitchen drawer and less accessible by young children. The top is hinged for access.

The option to 'customise' the top is built-in to each unit

Every S-Box™ Knife-Box comes with a 3mm deep brushed stainless steel top and matching mounting collar as standard. In most designs this works perfectly well. However, to give the designer complete freedom . . . and an *infinite* range of options . . . this top is remove-able so it can be replaced with any alternative (up to 12mm) material.

Surface-mount

(simplest 'custom' method)

Inset

(rebated within 30mm+ thick material)

Inset

(sitting on 2nd material below
20mm thick worktop)

WAYS OF FITTING YOUR S-BOX

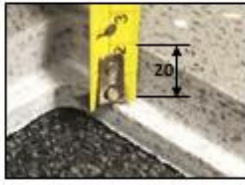

With or without custom top

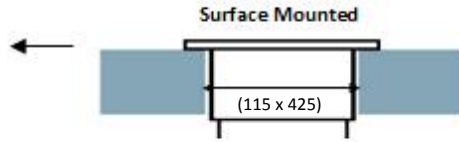

With or without custom top

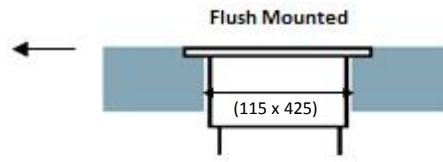

The S-Box™ mounting collar is adjustable to accommodate up to 12mm material, while still allowing for the press down action and collar dimension (8mm) within the 20mm rebate

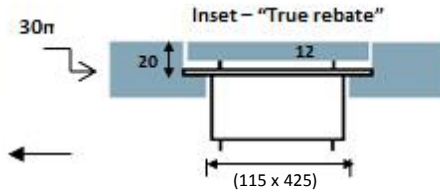

NOTE: ANY 'BELOW-SURFACE' INSTALLATION MUST BE AT -20mm

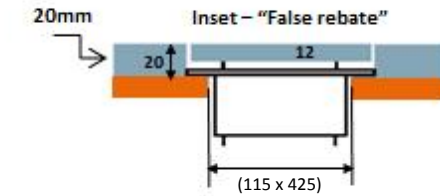

Please note:
IN ALL METHODS INVOLVING A CUSTOM TOP, THE STAINLESS STEEL ONE MUST BE REMOVED FIRST. THE MAXIMUM THICKNESS OF ANY CUSTOM TOP IS 12mm.

Surface Mounted in shallow 2.5mm rebate for a 'flush' finish

Set on 8mm wide rebate at 20mm depth below surface.

Set on 'false' rebate - created by use of a second material below the 20mm one.

WE RECOMMEND THAT 'CUT-OUT' PROCESS AND/OR ANY ALTERNATIVE 'CUSTOM TOP' SHOULD BE DONE BY YOUR WORKTOP PROVIDER

The S-Box™ has been tested and certified by FIRA International BS 6222-2:2009 to 25,000 operations.
