

# S-BOX<sup>TM</sup>

## CHAMELEON

## INTERNATIONAL POP-UP SOCKETS

WITH CAMOUFLAGE SKILLS

**S-Box® Chameleon ‘pop-up’ sockets are very special.**

Their patented ‘instant lift’ action delivers power points quickly, and beautifully, by the simple press of a finger, with no motor, no springs, and no gas struts to do so, and are cleverly designed to use the project material as their custom top.

It is, at last, now possible to provide countertop power that is camouflaged in its surroundings . . . until it is actually required!

S-Box™ products are nothing like the plastic towers of the past. They are tough, stylish and discreet, and are built from solid steel.

**IN NATURE, CAMOUFLAGE IS A MATTER OF SURVIVAL  
IN DESIGN, IT'S A MATTER OF STYLE!**

**S-Box® Chameleon pop-up sockets are manufactured in a wide range of International Plug Types and are used by Designers in over 70 Countries around the world.**

The S-Box™ socket box design has passed the ½ gallon Countertop Spill and Splash Tests for use in Wet Areas, so it is both a stylish and safe solution for providing convenient power in any work-surface or kitchen island.

# S-BOX™

Water Jet cutting technology now allows S-Box™ units to be “book-matched” for full Chameleon camouflage.

Cutting by Router will have to be a “best match”.  
(see page 9)

## WORLD SOCKET OPTIONS

**GB/IRE (Type G)**

**EURO Schuko (Type F)**

**FR/BE/CZ/PL (Type E)**

**ITALY (Type L)**

**SWITZERLAND (Type J)**

**USA/CANADA (Type B)**

**INDIA (Type D)**

**BRAZIL/RSA (Type N)**

**AU/NZ (Type I)**

.. NO MOTOR  
.. NO SPRINGS  
.. NO GAS STRUTS

A "zero-energy" lift  
system that *adjusts*  
for different weight!

S-Box® Chameleon uses a **10-12mm piece of your work-top material** to create a camouflaged finish, and **sits on a rebate 20mm below surface**.

The patented "press and lift-action" still pops-up automatically  
.. whatever density of material is being used for the Top!

This is the engineering break-through that designers have been waiting for!  
A simple adaptable 'lift-system' for **any** material . . . from lightweight timber  
through to heavy-weight granite and quartz!

It is now possible to provide convenient countertop power without  
spoiling the clean lines of any design, or the beauty of a surface finish.

# S-Box™ USB-C modules feature IDR (Intelligent Device Recognition) WITH 2 POWER LEVELS OF “CLEVER CHARGING” TECHNOLOGY

GB/UK sockets  
(example only)

**25W**

Provides 25W to USB C or 18W to USB A

Suitable for mobile phones

LEVEL

**1**

This **High-Power** model also contains an internal 30V DC PSU accommodated within the casing.

= Suitable power for both mobile phones and Desktop devices

**HP 72W**

Provides: 60W to USB C  
12W to USB A

EURO Type F socket  
(example only)

LEVEL

**2**

The TUF-R® A+C USB charger offers variable supply voltages and amp flow through its microchip depending on the device being charged. This is Intelligent Device Recognition (IDR).

When a device is plugged in to either Type A or Type C USB a digital 'handshake' takes place allowing the TUF to fast-charge the device at the optimum wattage level it demands.

## A GUIDE TO WHICH USB POWER LEVEL TO CHOOSE

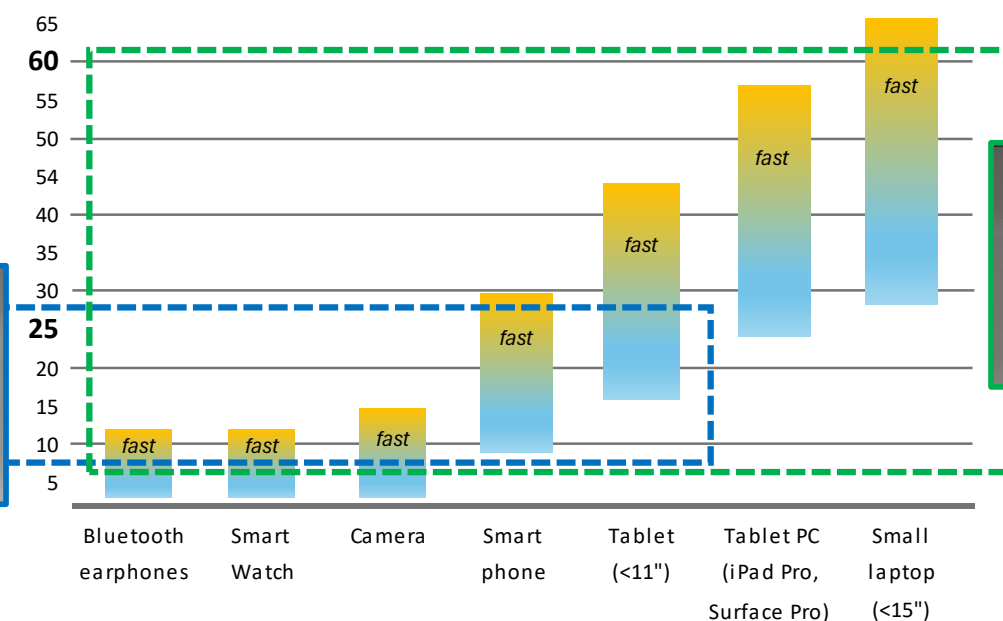

TYPICAL POWER  
CONSUMPTION OF  
COMMON  
PORTABLE DEVICES

USB-TUF® 25W

single device charging

WATTS

USB-HP 72W

dual device charging

## 2-PORT MINI

Available in two alternative models:

← 2 x Sockets only

OR 1 x Socket + USB 25W →

Code: CHAM-MINI - (+ socket type)

Code: CHAM-MINI-25W- (+ socket type)

STANDARD 25 Watt USB-C  
for Mobile Phones

## 3-PORT (3 x Sockets)

Please note that circuit breaker limit is 3,450 Watts (230v x 15A). Total load across all three sockets is 3.46KW.

Code: CHAM-01 - (+ socket type)

## 3-PORT (2 x Sockets + USB-C)

Available in two alternative models:

← USB 25 Watts

for Mobile Phones

OR

USB 72 Watts

with extra power for  
Tablet/Laptop

Code: CHAM-02-25W- (+ socket type)

Code: CHAM-02-72W- (+ socket type)

## INTERNATIONAL SOCKET TYPES AVAILABLE

**TYPE G**  
BRITISH  
STANDARD

**TYPE F**

**TYPE B**  
US15a  
120v only

**TYPE I**  
AU/NZ  
(3-Socket product only)

**TYPE N**  
RSA / BRAZIL  
16A 10A

**TYPE D**  
INDIA

All products are manufactured as complete, sealed and tested units with a 2.4m cable tail for connection to mains power by qualified electrician (by 3-pin plug or direct to mains spur, according to local IEC regs)

## S-BOX™ CHAMELEON – COMMERCIAL RANGE - with OFFICE “COMMS”

Code: CHAM-03

Code: CHAM-04

Code: CHAM-05

Code: CHAM-06-25W\*

Code: CHAM-07-25W\*

\*For Ultra-high-power  
USB (72W) option

use  
Code: -72W

ALL RJ45 AND HDMI MODELS INCLUDE 'COMMS' EXTENSION TAIL & CONNECTOR FOR LINK TO FLOOR SUPPLY

## WORKING FROM OFFICE OR WORKING FROM HOME?

WE HAVE THE POWER AND 'COMMS' TO DELIVER WHAT YOU NEED

HDMI

RJ45

USB-TUF 25W  
(MOBILE PHONES)

USB-HP- 72W  
(MOBILES and Tablets and LAPTOPS etc)

- 1** S-BOX® CHAMELEON MODELS are supplied **without a top**, and are designed to drop into a pre-cut hole in the Counter **on a rebate at exactly 20mm below the surface** i.e. a 'shelf' of material.
- 2** They are duly ready to receive their own matching piece of worktop (up to 12mm maximum thickness) to be used as the custom top.

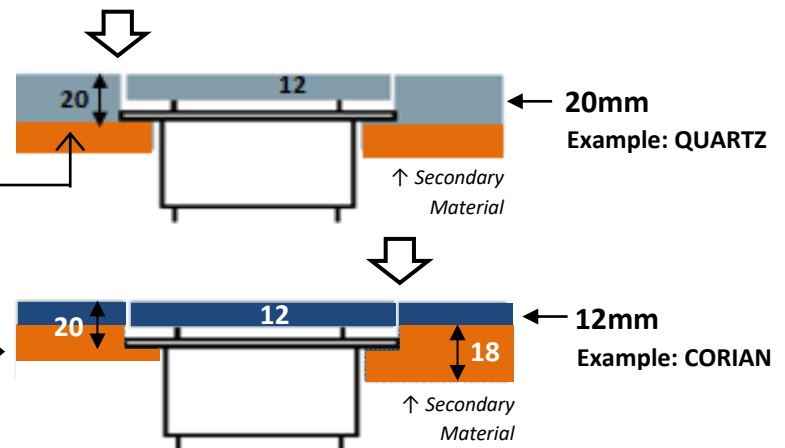

CUTTING OF STONE MATERIALS SUCH AS GRANITE & QUARTZ IS A **FACTORY PROCESS** SO PLEASE INVOLVE THE FABRICATOR OF SUCH MATERIALS IN THE DESIGN & SPECIFICATION PROCESS

This rebate is either a **"True Rebate"** - e.g. one that is pre-cut by a router **within** thick material (30mm and over)

OR it is a **"False rebate"**. This is one that is *created* directly below thinner material (20mm or less) by using a **secondary material bonded underneath** to 'create' the shelf.
